

Siskiyou County Land Under \$15,000

Ten Active Parcels, Compared

Ten active parcels under \$15,000, pulled from the Siskiyou County MLS rather than a public listing site, sorted by price. All ten are raw unimproved land needing a well and a septic system, so the notes below focus on what actually separates them: price per acre, whether power is available, the ground itself, and in one case a septic test that is already approved.

At a Glance

PARCEL	PRICE	ACRES	PER ACRE	POWER	DAYS
LOT 156 IRON GATE RD	\$4,000	2.50 AC	\$1,600	Not stated	39
LOT 127 WILLIT WAY	\$4,999	2.50 AC	\$2,000	Available	91
UNIT 4 LOT 471 ERICK LANE	\$4,999	4.80 AC	\$1,041	Not stated	134
LOT 175 SHASTA LANE	\$8,000	2.70 AC	\$2,963	Available	398

DENNIS PLACE	\$14,900	6.90 AC	\$2,159	Available	93

Lot 156 Iron Gate Rd

IRON GATE ESTATES · HORN BROOK

\$4,000 · 2.50 AC · \$1,600 PER ACRE · APN 102-340-240

The lowest price on this list. Two and a half acres of gentle ground, roughly 260 by 420 feet. Its twin next door, Lot 184, is listed at the same \$4,000, so there is a matched pair here if more acreage is the goal. The listing does not state whether power is available at either one, so distance to the nearest service point is worth pricing before an offer.

This Land Comparison is prepared by a licensed real estate professional from available listing and public record data. It is not a home inspection, title report, or substitute for independent verification.

Lot 127 Willit Way

KLAMATH RIVER COUNTRY ESTATES · MONTAGUE

\$4,999 · 2.50 AC · \$2,000 PER ACRE · APN 104-390-100

Under five thousand dollars with power available and gentle ground, which is an unusual combination at this price. Wooded, two and a half acres, sitting across from Greenfinch with a sign at the entrance near the power box. The listing notes the seller is motivated.

Unit 4 Lot 471 Erick Lane

KLAMATH RIVER COUNTRY ESTATES · MONTAGUE

\$4,999 · 4.80 AC · \$1,041 PER ACRE · APN 104-140-130

The best price per acre on the list by a wide margin. Nearly five acres of wooded ground for under five thousand dollars, in a diamond shape running roughly 491 by 523 by 434 by 620 feet. It carries 40 photographs, which is a far better look than most parcels at this price get. Power is not stated on the listing.

Lot 175 Shasta Lane

IRON GATE ESTATES · HORN BROOK

\$8,000 · 2.70 AC · \$2,963 PER ACRE · APN 102-140-130

The one parcel on this list showing an approved perc test already on file. That test is what decides whether a septic system can be permitted, and on raw land it is normally the buyer's cost and the buyer's risk to carry, so having it done changes the math more than the price does. Power is available and the ground is gentle. It has been listed over a year, which usually means room to negotiate.

Unit 4 Lot 711 Clark Road

KLAMATH RIVER COUNTRY ESTATES · HORN BROOK

\$8,888 · 2.90 AC · \$3,065 PER ACRE · APN 104-320-120

Just under three acres with power available, wooded, and only a couple of months on the market. Lot lines run roughly 279 by 470 by 274 by 499 feet, two lots past Crane Way. Thirty three photographs on the listing.

Unit 4 Lot 751 Pigeon Street

KLAMATH RIVER COUNTRY ESTATES · HORN BROOK

\$8,888 · 2.70 AC · \$3,292 PER ACRE · APN 104-360-220

The newest listing here at ten days on market, so nothing has been picked over yet. Power is available, the lot is wooded, and it runs roughly 190 by 414 by 544 by 335 feet.

This Land Comparison is prepared by a licensed real estate professional from available listing and public record data. It is not a home inspection, title report, or substitute for independent verification.

Lot 523 Blue Gill Drive

KLAMATH RIVER COUNTRY ESTATES · HORN BROOK

\$9,500 · 2.60 AC · \$3,654 PER ACRE · APN 104-250-070

Power available on a wooded 2.60 acre lot, irregular in shape, running along Blue Gill Drive from before the Butterfly intersection around the corner. Just under six months on the market.

Circle Drive

IRON GATE LAKE ESTATES · HORN BROOK

\$10,000 · 6.00 AC · \$1,667 PER ACRE · APN 102-041-210

Six acres for ten thousand dollars, and the listing describes it as two separate lots of two acres or more rather than one parcel. It is zoned Ag-2-B with an agricultural use designation, which is a different category from the residential lots on this list and worth confirming against what you want to do with it. It has been on the market a long time, which usually means room to negotiate.

Unit 4 Lot 162 Oak View Road

IRON GATE ESTATES · HORN BROOK

\$10,500 · 2.70 AC · \$3,889 PER ACRE · APN 102-210-270

The only parcel here with financing terms spelled out. The seller is willing to carry with half down at 12 percent over five years, which matters because land at this price is otherwise almost always a cash purchase. Wooded, 2.70 acres. The listing shows no electricity at the property, so a line extension would be part of the cost.

Dennis Place

KLAMATH RIVER COUNTRY ESTATES · HORN BROOK

\$14,900 · 6.90 AC · \$2,159 PER ACRE · APN 103-320-010

The most land on this list at 6.90 acres, with power available and gentle wooded ground, for \$14,900. Roughly 370 by 774 by 300 by 929 feet, at the end of Dennis Lane where it meets Dennis Place. Top of the range here, and the second best price per acre of the ten.

BEFORE AN OFFER ON ANY OF THESE

Every parcel above needs a well and a septic system, which is normal for raw land at these prices. A perc test through Siskiyou County Environmental Health is what confirms a septic system can be permitted, and it is worth running before contingencies are removed rather than after. Where power is shown as available, the distance to the nearest service point still has to be measured and quoted. Zoning is shown as listed and worth confirming with Siskiyou County Planning.
